Commit to the course of action

Capacity

Grow our capacity

Character

Work within Strong Value Framework

Build to Last – Retirement Benefits Scheme

Clock-Building- Visionary SRBS' long-term successes do not come from a great idea or a charismatic, visionary Board. Rather, they are successful because of strong foundations embedded in the Scheme that allow them to prosper beyond Board and services life cycles.

More than Profits- Visionary Boards pursue a cluster of objectives, of which money is only one component. They understand that profitability is necessary for the organization to exist and fulfill its purpose, but they are much more than profits.

Preserve the Core-A visionary Board has a relentless drive for progress, i.e. it adapts without compromising its core ideals.

- The Core ideals are the scheme's purpose and values
- Legacy is when people prosper because of what you did yesterday
- Nostalgia is when people remember the good times you had together yesterday
- What if we measured the success of this Board by the effects of their action ten years from now and not just what you are able to achieve today

What we are solving

Climate Change

Drought, floods, high temperatures causing property destruction, migrations and health challenges

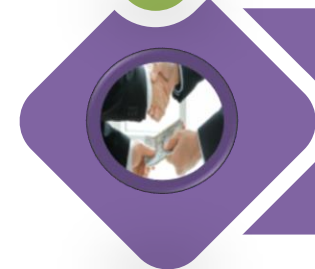

Social Injustices

Gender imbalance, customer exploitation, eroded ethics, Drug Abuse, Human rights

Declining Economy

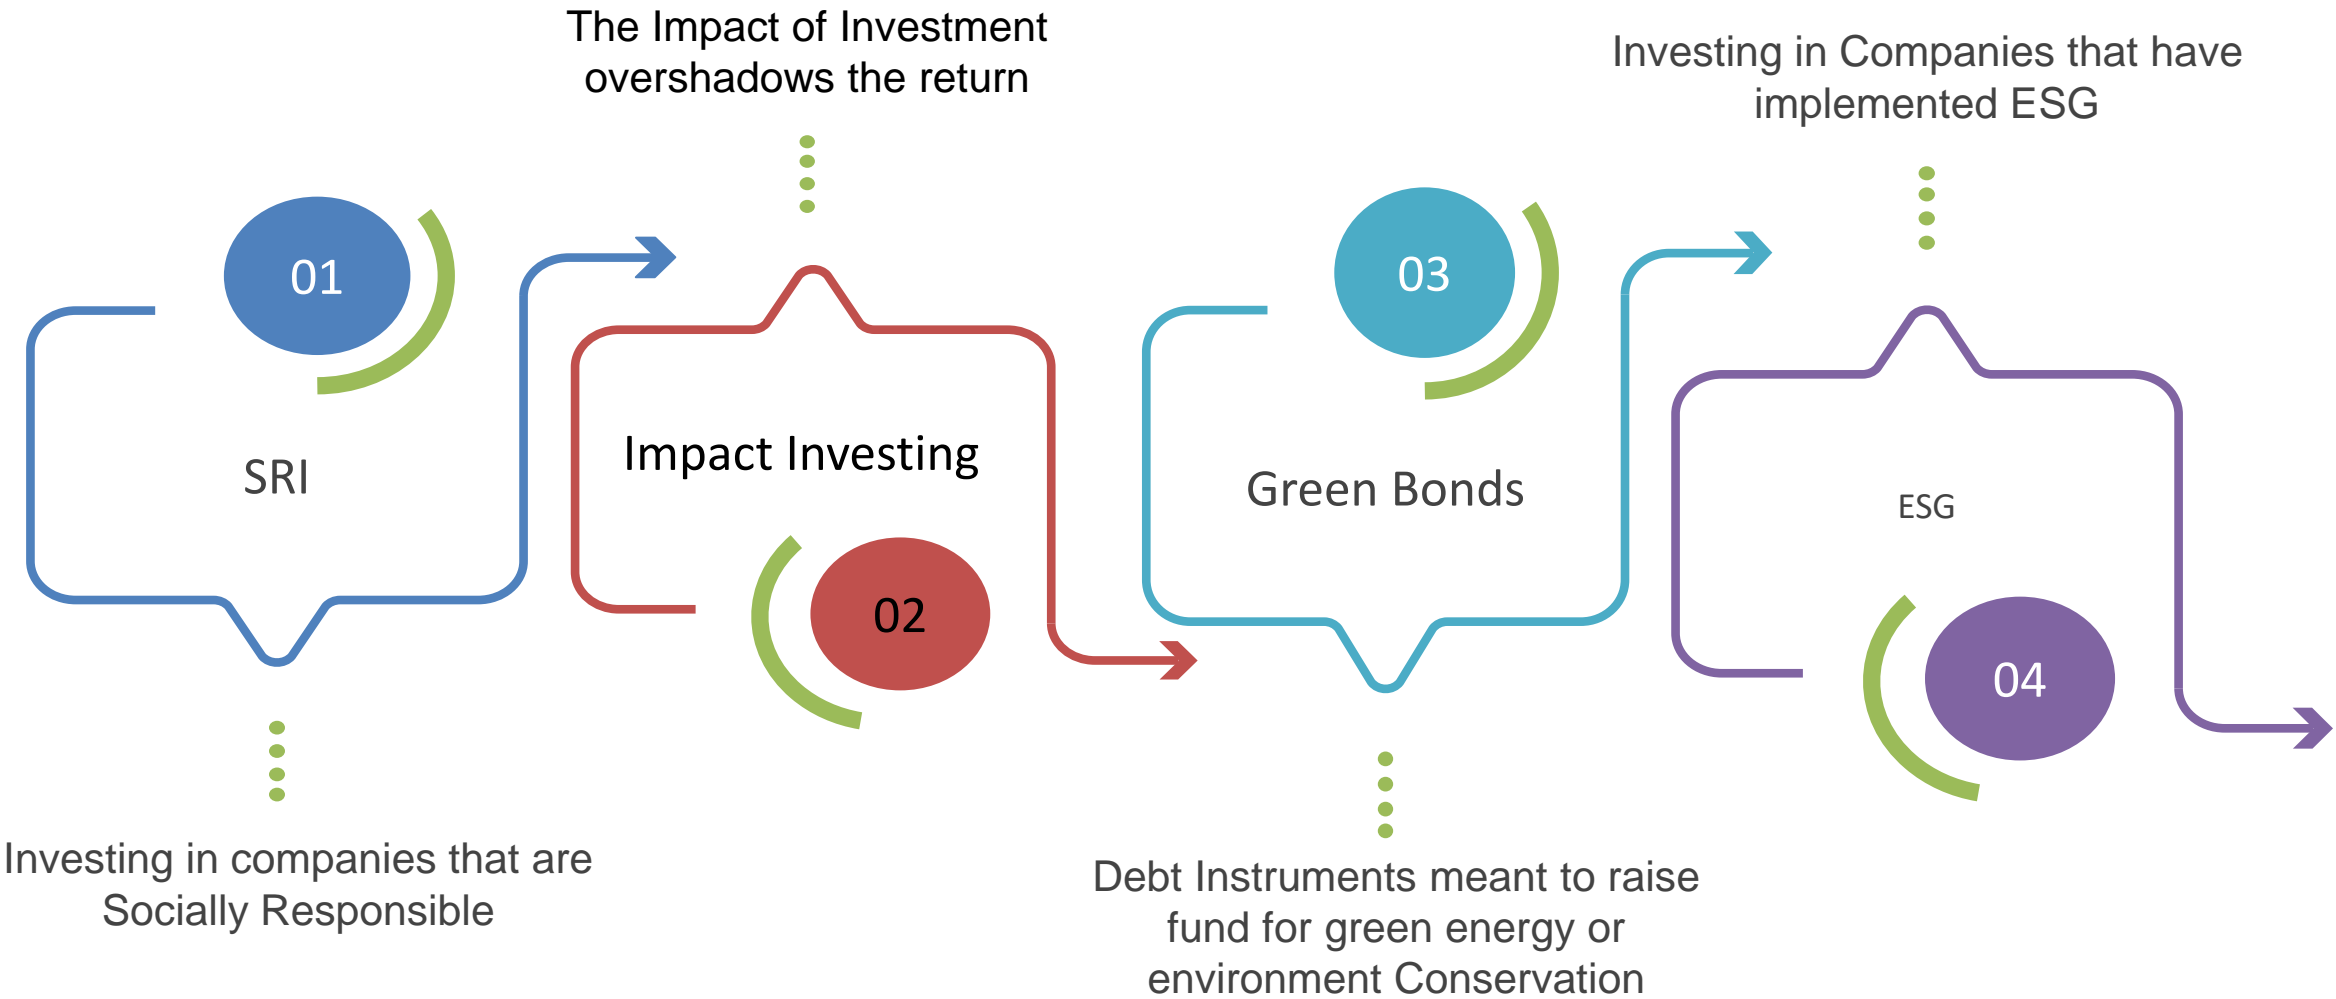

Poor infrastructure, Excess imports, reduced CPI, Debt crisis

Poor Governance

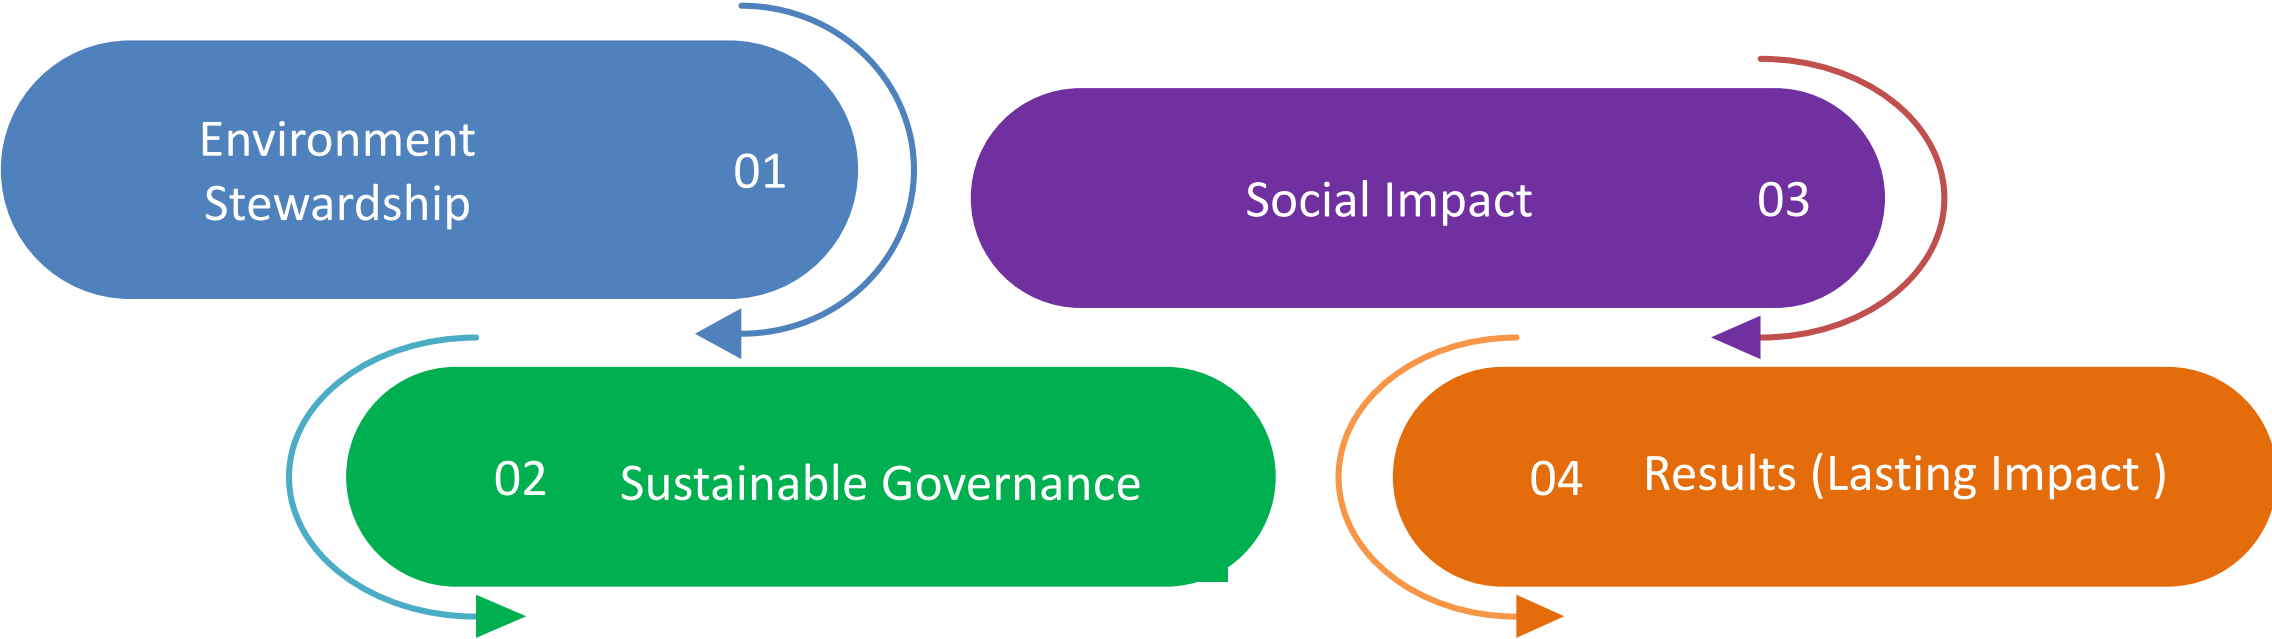

No diversity in Boards, Lack of Transparency, lack of succession plans, broken values

Sustainable Investing

Transforming the Money holder and the Holders Environment

Understanding ESG

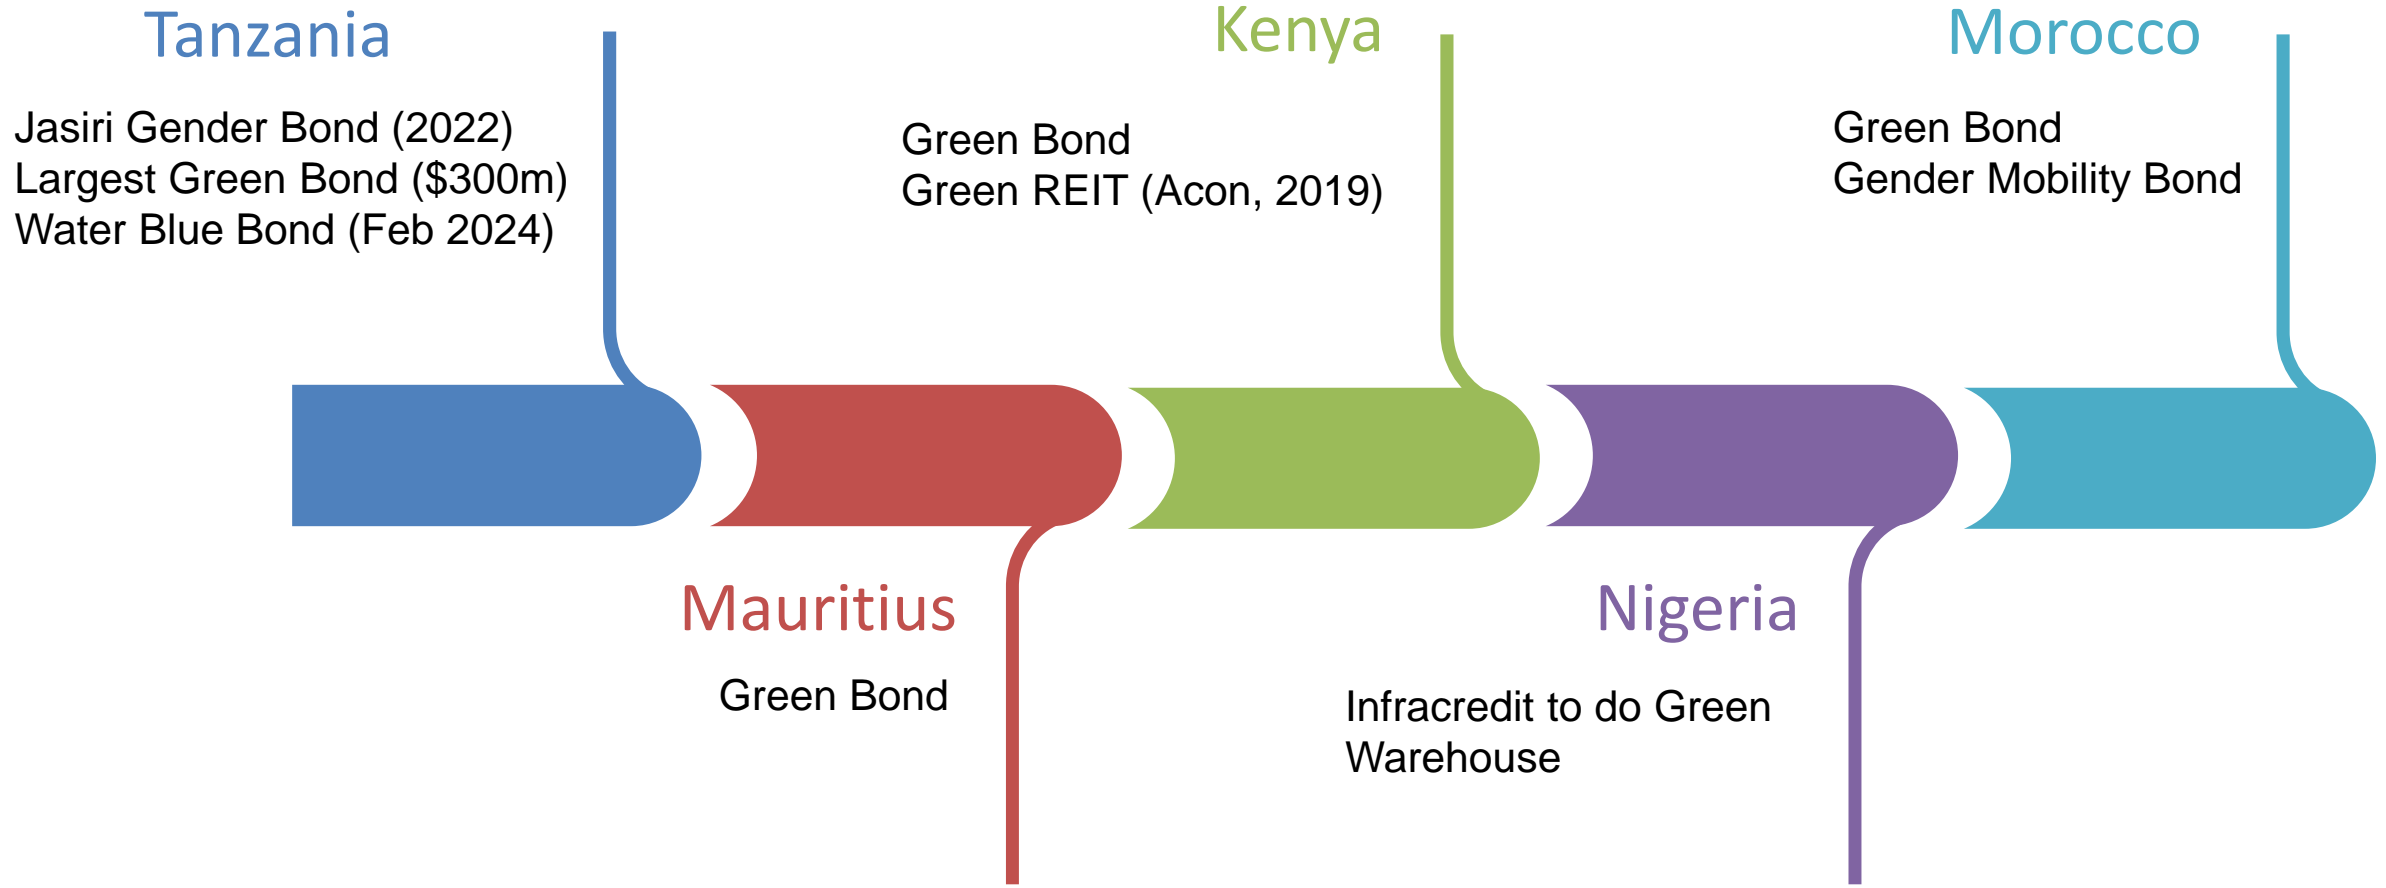

Survival

Success

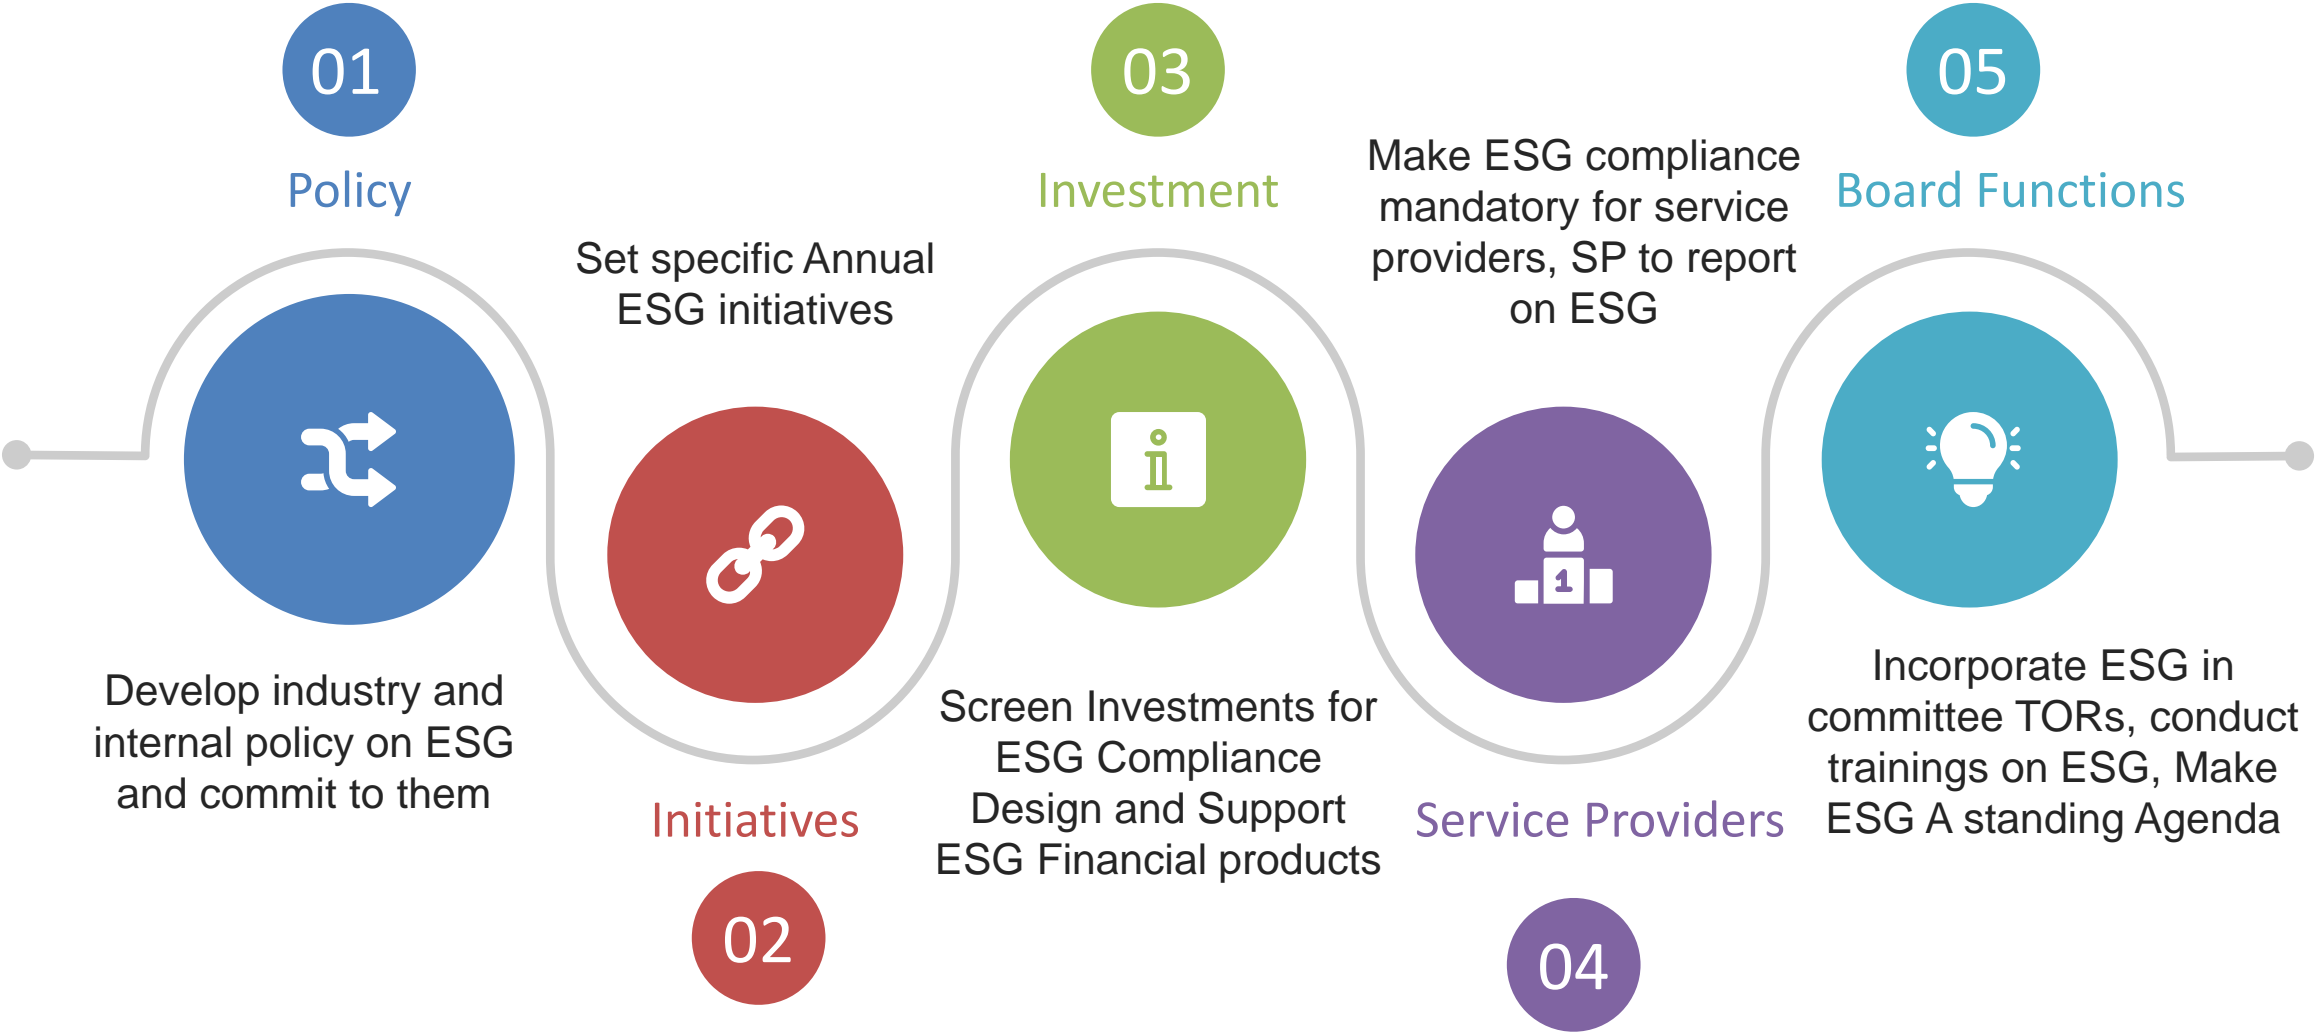

Significance

The story from our Neighbors

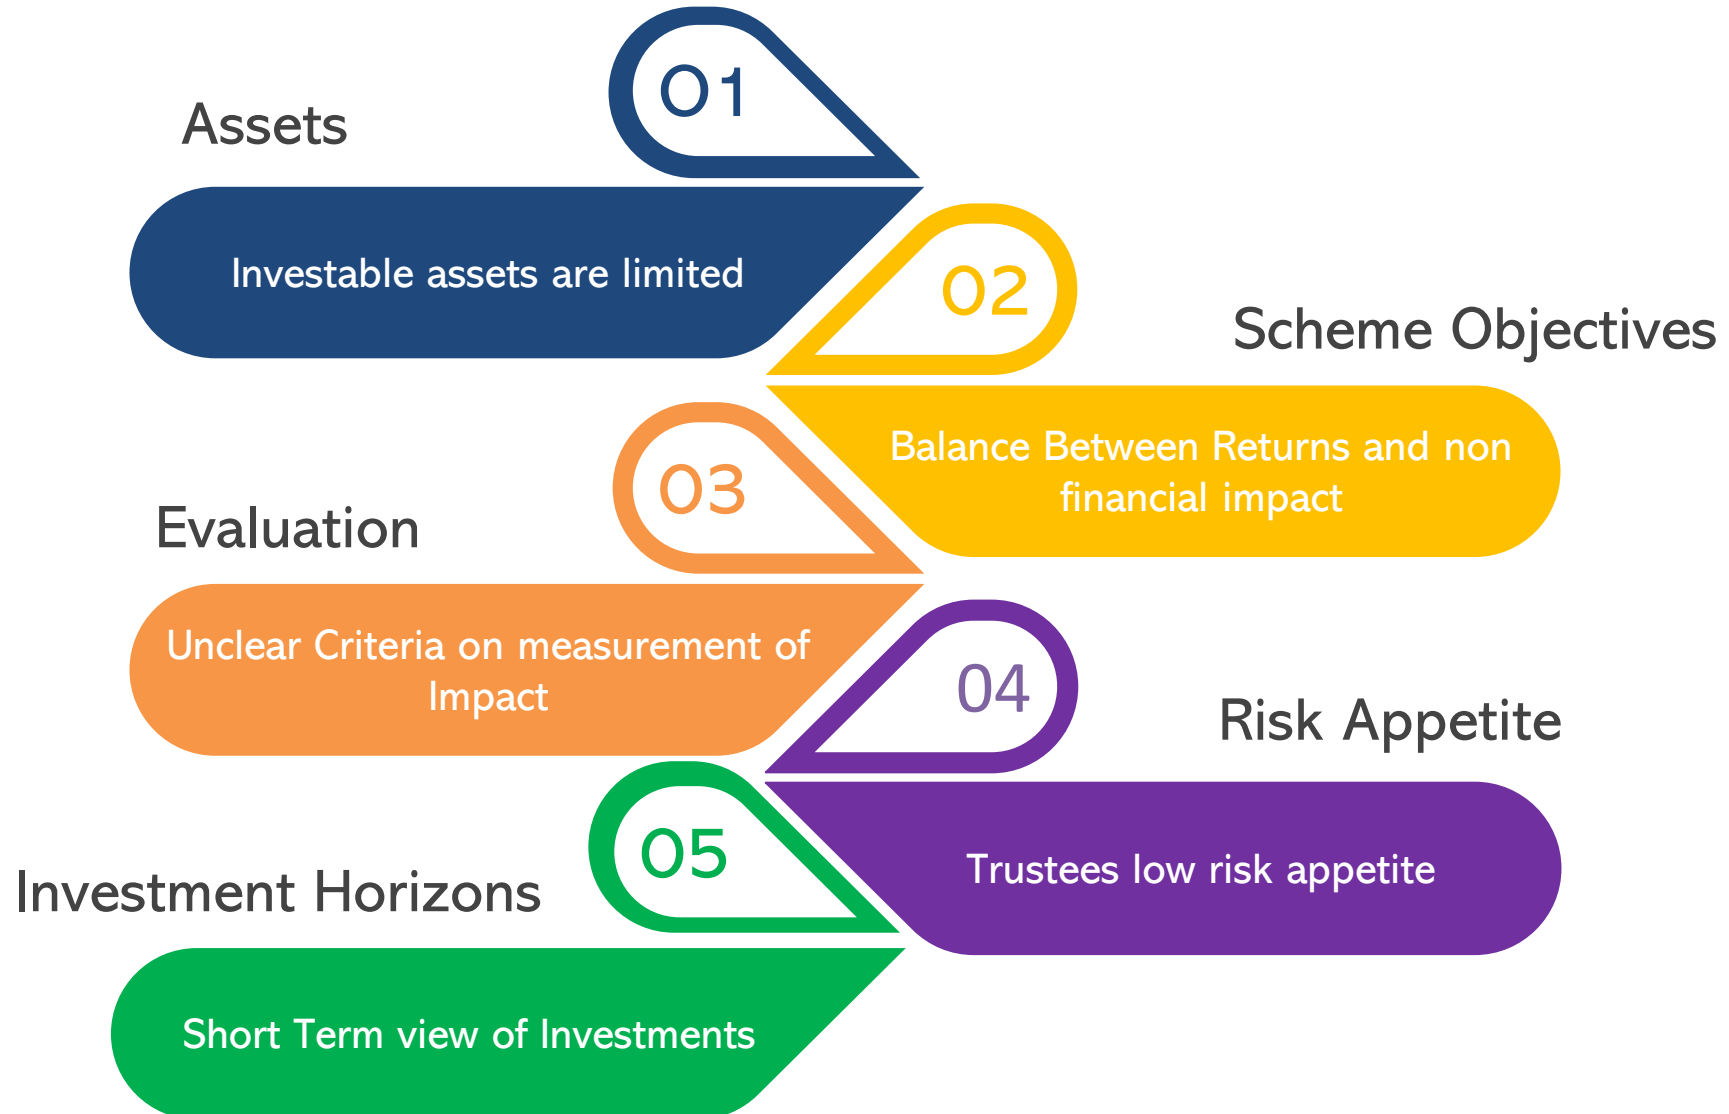

Data Picked from Financial Sector Development (FSD) Report

Integration of ESG in Retirement Benefits Scheme
